

Hexham Abbey was the focus of our Regional November event

47 Members from across our Northumbria region came to visit, “Threads through Creation”, the work of Jacqui Parkinson consisting of 12 vibrant textile panels. The visit was combined with an opportunity to visit the Abbey and its own interpretive exhibition, listen to an organ recital and have a guided tour. As with all our events it was an opportunity to meet others from across the region and this was done over a sandwich lunch. The feedback suggests that everyone enjoyed the day.
